

Beaumont Reserve Fleet

September 30, 2010

Mike Clawson

American Contractor & Technology, Inc.
1101 Gulf Breeze Pkwy, Suite 315
Gulf Breeze Fl. 32561

Sir:

I would like to recognize Mike Clawson for his professionalism and courtesy while performing his supervisory duties during the Hurricane Ike repair project, Contract DTMA2C09001, at The Beaumont Reserve Fleet in Beaumont Texas, worth \$4,067,498.63 to include a 250' cement dock, steel sheet pile bulkhead with steel cap, 30'X60' training building, cement drive way, automated fire system and all associated demolition. He demonstrated knowledge and honesty far above my expectation. His attention to detail and willingness to provide a quality project was very beneficial to us as well as his and ACT's reputation. I fell that he represented ACT in a very positive and very acceptable manner. I look forward to working with him in the future should the occasion present itself.

Sincerely,

Lawrence Wolfford
